SUMMARY

Experienced web developer and skilled video editor with a strong passion for creating captivating digital experiences. Combining technical expertise in front-end development with a creative eye for visual storytelling, adept at delivering dynamic and engaging content for online platforms.

EXPERIENCE

Upwork (United States)

Freelance Web Developer
Aug, 2022 - Present

I partly work as a freelancer.

EDUCATION

Kathmandu University (Dhulikhel)

Bachelors in computer engineering
Sep, 2019 - Present

I pursued my Bachelor's degree in Computer Engineering from Kathmandu University, a prestigious institution known for its excellence in education.

PROJECTS

Socio

I have developed apps like Socio which is a social media app using MERN stack. This facilitates user to post, share and communicate with their friends and family.

MoneyMap

This is an app built using MERN stack. This creates a subtle handlings to the people that are mostly deviated to NEPSE. It shows live market data and helps user to keep track of their assets.
